Work History

2016-03 - Current

Front End / Produce Clerk

Jewels Osco, Naperville, IL

I have been employed by Jewel Osco since 2016, starting in the Front End department, moving to handling Produce in 2017. From 2017-present, I have been responsible for Ready-to-eat production in the Deli department, handling customer service, preparing fresh made sandwiches and salads.

Education

2021-07 - 2022-02

Full Stack Web Development

Northwestern University - Evanston, IL

Projects

SWEPT!

SWEPT! is a MERN stack application built for City of Chicago residents looking to avoid parking tickets. Users are able to view their Street Sweeper schedules in the summer, and their local snow parking restrictions in the winter.

SWEPT! was built with ReactJS, MongoDB, ExpressJS, NodeJS, JavaScript, JWT, GraphQL, CSS, as well as three City of Chicago APIs.
